

THREE LAKES WATER ASSOCIATION  
P.O. BOX 24  
SNOHOMISH, WA 98291  
(360) 568-8022

**2017 ANNUAL NEWS LETTER**

Dear Members,

First, I would like to thank outgoing President Don Doser for his recent service. He is continuing to serve as a member of the Three Lakes Board. In a new change, we have dropped the "Inc." from our name and now will be known simply as "Three Lakes Water Association". Operationally, we are expanding with two new property developments and have plans for pipeline replacement in 2017 along Storm Lake Road between Mero Road and Weber Road. The Board acknowledges Kaila Kemmis' recent certification as a WDM2. During 2016 we launched our own Facebook page to help keep shareholders informed of news and service-related issues. Also, unfortunately for the first time in 3 years we have had to implement a rate increase which will start in July due to increased operating costs and future projects.

Sincerely,  
Bob Bartell  
President, Three Lakes Water Association

**Consumer Confidence Report**

**Water Served in Year 2016**

Department of Health now allows the distribution of the CCR through electronic delivery. This means the report is available for download from our website: The direct link to download this file is:

**<http://3lwa.org/documents/17CCR3L.pdf>**

If you would prefer a paper version mailed to you, please let us know. Call and leave a message at (360) 568-8022 stating your name and account number with the statement that you would like us to mail out a copy of the CCR and we will do so. You can also send us a note included with your next payment with this type of request.

Your CCR contains important information regarding the water we serve. Please take the time to read and understand it. If you have questions about your water, please let me know and I will do my best to help you with answers.

Respectfully,  
Don Kemmis,  
General Manager

**Membership:**

As our system contains older AC main primarily installed in 1960s that is prone to break and leak, there are more leaks that are difficult to locate. The Association needs your help to find these issues. Please report any suspicious or unusual surface water as it could be a leak. Call (360) 568-8022 or after hours (425) 903-1601.

The Board has in place a comprehensive plan that includes the replacement of the older AC main. We try to target the replacement of segments that fail more frequently. The development and expansion of the system continues as the Association grows.

The Association needs Board Trustees to govern as a non-profit corporation. The Board meets regularly on the second Tuesday of the month at 7:00 p.m. at the office. Your input would be appreciated.
